

## EFTPS SMALL-BUSINESS WORKSHOPS

Illinois businesses are the first in the nation that can pay state withholding and federal taxes in a single transaction with a single PIN and a single password using EFTPS Online.

A series of workshops are being held for Illinois small businesses to familiarize them with the Electronic Federal Tax Payment System (EFTPS) and help them enroll in the service. See below for a schedule of upcoming EFTPS small-business workshops, sponsored by the Illinois Department of Revenue and two bureaus of the U.S. Department of the Treasury, the Financial Management Service and the Internal Revenue Service.
